

PAGE 8:

Line 5, change "3 c" to --3c--;

Line 14, change "3 d" to --3d--.

IN THE CLAIMS:

Claim 1, line 8, change "the" to --an-- and line 16,  
change "electively" to --selectively--.

REMARKS

Applicant and applicant's counsel note with  
appreciation the allowance of claims 1-4.

In order to correct obvious informalities, the  
specification has been amended in minor respects. Similarly,  
claim 1 has been amended to correct a typographical error  
("electively" to --selectively--) and to avoid an instance  
of inferential claiming ("the oxidizing atmosphere" to  
--an oxidizing atmosphere--).

These amendments are minimal in number and will not  
entail an undue amount of work on the part of the Office. In  
view of the allowance of the application on the first Action  
and the need for correcting obvious informalities prior to  
printing of the patent, favorable consideration and entry  
hereof are most respectfully requested.

Respectfully submitted,

BURNS, LOBATO & ADAMS, P.C.  
Attorneys for Applicant
